Save Fuel Keep Warm End Draughts

You will be surprised at the small cost of equipping your home or business building with Chamberlin Metal Weather Strips.

And they add so much to comfort, cleanliness and good household economy. They save 25% to 40% of fuel costs. Keep dirt, dust, soot and smoke from sifting in. That ends one of the most tedious tasks of housework.

Why Heat Your Building 36 Times

doors Chamber-Every Day? Tests show the inrush of cold air at unprotected windows and doors fills the average building 36 times daily. Why fight this with fuel? How much more simple to bar it out as thousands of good home. of good home managers do, with Chamberlin Metal Weather Strips.

lin Metal Weather Strips permanently end fuel waste and discomforts resulting . from draughts. They make homes dustproof. Protect hangings, furnishings and decora-tions. End ratthing doors and windows.

10,000,000

windows and

Healthier homes result, Children are safe from cold air currents. No cold spots. You are not driven from the bright cheerful window by chill draughts.

Chamberlin Strips are used Pe on 85% of all weather banks, schools, office buildings, churches, stores, hotels and apartments.

Their cost is less than you would think They are guaranteed to last as long as the building. An estimate by our engineering department, on the cost of your equipment, is free. Just send the coupon.

TOW shall our home be

steam or hot water, hot air,

heated? Shall we install

a "pipeless" furnace, or even

employ gas as a heating fuel?

Aii of these types have good points

and warm adherents as well as

those qualities which might be

The steam-heating plant and the

hot-water plant are quite similar in

construction and operation. There

is the central "bofler" and a system of pipes through which the hot

air is forced into the radiators of

each room. It seems the universal

opinion that a hot-water plant is

easier to care for and gives better results in heat thrown out than any

other form or system. It is at the

same time the most expensive because it has a duplicate set of

pipes. The heat may be raised

more quickly on a steam system

With both systems the important

thing is the installation. The very best plant manufactured can be

robbed of much of its efficiency be-

cause it is put in by an unskilled

plumber. Nowhere else is it so im-

portant to pay for scientific installa-

tion as in the matter of putting in

I think the best method is to

get comparative bids from at least

three reputable men, and if any two

of them say the same thing, we may

The common type of furnace or

"hot-air" plant is still less expensive than either steam or hot water. At

the same time, such a system is

much more subject to temperature changes and variation and more ef-

fected by winds than either of the

other two. Often, also, the furnace

is poorly installed in the cellar so

than on a hot-water system.

both heat and piumbing

take it as honest and best.

classed as disadvantages.

Breakfast Hamburg Steaks, Hot Baking Powder Biscuits, Relish, Coffee, Luncheon

By Mrs. Christine Frederick,

that the pipes do not have sufficient

slant and thus lose the power of

giving enough heat. I know a num-

years' unsuccessful use, the fur-

naces were all taken out, the cellar

floor dug down two or three feet and

give sufficient slant and draught to

the pipes. The hot-air furnace prob-

anly needs more constant care than

does the boiler in the other systems.

is becoming very popular. It has many advantages in that there is

only one large central register in

the floor instead of one in each

room. The heat given off by this

central register rises in the room

and, owing to the cold-air currents, is diffused throughout the house in

an even and satisfactory manner.

It must be said, however, that the

"pipeless" furnace is best adapted

to the small house of a square shape

and also to the informal house

where no one objects to the doors

of all rooms standing open, as must be the case where it is used. I think the "pipeless" furnace has a

wide usefulness in the small house

to replace the old type of parlor

and individual heating stove, but I

do not think it is satisfactory in a

house of some size, nor one built on

a rectangular plan nor one where any degree of formality prevails.

where one central small boiler (of

most attractive appearance) is lo-

cated on the main floor and con-

nected with small pipes or "risers"

Another type of heating is that

Have Nothing To Do With The Case"

Dompeian (ream

Can You Guess Her Secret?

> "HOW well you look tonight!" he exclaimed. "Just as pretty as the day I married you. No one would think this was our tenth anniversary!"

He is right. She looks as lovely as ever. The clear flush of youth is in her cheeks, for she has learned the secret of Instant Beauty-the complete "Pompeian Beauty Toilette."

First, a touch of fragrant Pompeian DAY Cream (vanishing). It softens the skin and holds the powder. Work the cream well into the skin so the powder adheres evenly. Then apply Pompeian BEAUTY Powder. It makes the skin beautifully fair and adds the charm of delicate fragrance. Now a touch of Pompeian BLOOM for youthful color. Do you know that a bit of color in the cheeks makes the eyes sparkle with a new beauty? Lastly, dust over again with the powder in order to subdue the Bloom. Presto! The face is beautified and youthi-fied in an instant! (Above 3 preparations may be used separately or together. At all druggists, 60c each.)

TRY NEW POWDER SHADES. The correct powder shade is more important than the color of dress you wear. NATURELLE is a more delicate tone than Flesh shade, and blends exquisitely with a medium complexion. RACHEL

BEAUTY Powder (60c) stays on unusually long BLOOM (60c) a rouge that won't break; light, dark, medium DAY Cream (60c) vanishing; holds the powder MASSAGE Cream (60c) . . . clears up the complexion NIGHT Cream (50c) the cold cream for beauty

"Honeymooning in Venice." What romance! The golden moonlit balcony! The blue lagoon! The swift-gliding gondolas! The serenading gondoliers! Such is the romantic story told in the new 1922 Pompeian panel. Size, 28 x 7 1/4 inches. In beautiful colors. Sent for only 10c. Art store value goe to \$1. With each Art Panel we send samples of Pompeian BEAUTY Powder, DAY Cream (vanishing), BLOOM, NIGHT Cream (an improved cold cream), and FRAGRANCE (a talc). You can make many interesting beauty experiments with them. Please tear off coupon now.
